

STEVENS CREEK EXPERIENCE

Frequently Asked Questions

Q: What is the Stevens Creek Experience?

A: Stevens Creek is joining Lee University to offer ministry students the opportunity to put what they are learning academically immediately into practice in a local church environment. We looked at the study abroad program at Cambridge and thought, “What could we do to give students that opportunity in the local church?” and so we came up with this experience. You are going to live here. You are going to take classes here at the church. Our pastors are going to be your professors each and every week. You will learn in a brand new way and earn 15 credit hours that you can apply towards your degree. Those hours also include your Internship which is so important to graduate. This program is for you if you are a ministry student in the music department or in the School of Religion. This semester, we are looking to offer this to just 5 students. So sign up today!

Q: Where am I going to stay?

A: You will be staying in apartments around the area.

Q: What about a meal plan?

A: We do not offer a meal plan. We have a lot of local and national restaurants in our area that cover all budgets.

Q: What will my schedule be like?

A: Your typical schedule will look very similar to any of our staff members. Along with your classes, your learning will be fused with hands-on practical application and ministry opportunities at our multiple campuses around the area.

Q: How much does it cost?

A: Your tuition will be like a typical semester and paid directly to Lee.

Q: What is there to do in Augusta?

A: There is so much to do in the Augusta area known as the CSRA. Evans is one of the fastest growing cities in America and there is a lot of excitement around that. Augusta is also a college town, so there is a lot of things for you to do as students! There is the Canal where you can walk or ride your bike and kayak. We have Clarks Hill Lake and hiking trails surrounding that. There is also Top Golf and theaters and little markets. And lots of food: Mexican, American, Greek, Italian, Thai, Vietnamese, Japanese, etc.
